A 4-Wheel Drive Truck

This is an important organizing tool that helps organizers, legal advisors, and activists travel through difficult to access locations.

Legal Aid

The release of the Guapinol 12 was a huge victory! But the ongoing work of providing legal support in the midst of continued oppression is just as urgent today as it was then.

Coalition-Building

From local workshops to train the trainer opportunities, the hope is to be able to deploy more leaders and strengthen their efforts in every region. Support is needed for transportation, food, training materials, and stipends to support families of activists who are under threat.
